LP Bracket System (LP)

LP Bracket System standard

The punched plates (LP) bracket can be used to connect all common front loaders, wheel loaders, telescopic- or compact loaders to our devices.

The attachments are factory made and delivered with two permanently welded perforated plates. Specific receptacles for the carrier vehicles are simply bolted onto these. Please indicate the type of front end, telescopic, compact or wheel loader when ordering an attachment.

front loader / carrier vehicle / manufacturer	type	Art.-No.
Euro bracket	front loader	125.007.010
Ahlmann AX 85 / AS + AL	wheel loader	125.007.030
Atlas AR series ab 42	wheel loader	125.007.140

Farm equipment

Pallet Fork Carrier Frame

Universal pallet fork carrier frame in accordance with ISO2328 FEM II with or with-out forged quality pallet forks (1,200 mm long).

You can optionally screw **up to 4 bale spike prongs (M22)** directly into the frame or **exchange them quickly and easily with the skewer holder.**

It is also possible **to hold a gripper or two carriers for big bags up to 1,000 x 1,000 mm.** Due to the special suspension, the Big Bags can be filled from above and cannot slip off during transport.

Art.-No.	description	width in mm	load capacity in kg**	weight approx. in kg
125.023.000	palett fork "visibility" (1)	1.200	2.000	170
125.023.700	with Euro-bracket/bushes	1.200	2.000	150
125.023.800	with Weidemann-bracket	1.200	2.000	147
125.023.900	with Schäffer-bracket	1.200	2.000	147
125.023.100	pallet fork carriage (2) <i>for 125.023.000</i>	1.200	2.000	86
125.023.750	carriage for 125.023.700	1.200	2.000	65
125.023.850	carriage for 125.023.800	1.200	2.000	62
125.023.950	carriage for 125.023.900	1.200	2.000	62

Bale Handling

Square bale gripper

With **Euro-bracket** (125.025.200) and **LP-bracket system** (125.025.700) **for front-, telescopic- or wheel loaders** (please order adapter plates separately), for round and square bales, including pressure relief valve, hydraulic cylinder and hydraulic hoses with quick connector BG3.

Art.-No.	min. width ext. dim (mm)	bale size in mm	ext. height in mm	load capacity in kg	weight approx. kg
125.025.200	1.150	800-2.000	675	1.000	210
125.025.700	1.150	800-2.000	675	1.000	210

schwarz RAL 9005 – rot RAL 3002

Round bale gripper

With **Euro-bracket** (125.024.600) and **LP-bracket system** (125.024.620) **for front-, telescopic- or wheel loaders** (please order adapter plates separately), for round bales, including hydraulic cylinder and hydraulic hoses with quick connector BG3.

Art.-No.	min. width ext. dim (mm)	bale size in mm	ext. height in mm	load capacity in kg	weight approx. kg
125.024.600	1.350	900-1.600	760	1.000	180
125.024.620	1.350	900-1.600	760	1.000	180

anthracite-grey RAL 7016 – red RAL 3002

Hydraulic bale handler

With **Euro- and three-point bracket**, the **hydraulic bale handler** with hydraulic cylinder and hydraulic hoses with quick connector BG3, the heavy duty forged steel tines are covered with demountable pivoting steel tubes to protect the bale wrap.

Art.-No.	min. width ext. dim (mm)	bale size in mm	ext. height in mm	load capacity in kg	weight approx. kg
125.028.800	1.150	900-1.500	675	1.000	140

black RAL 9005 – red RAL 3002

Bale Handling

Bale spikes

Double or quadruple bale spikes, with **Euro- and three-point bracket**, high-quality (square shaft) spring steel spikes 1,100 mm long (screw thread M 22 x 1.5), thick-walled tube with welded tapered sleeves.

Art.-No.	frame size in mm	spikes	load capacity approx. kg	weight approx. in kg
125.030.000	1.080 x 500	2	1.000	47
125.030.500	1.500 x 900	4	1.500	100
125.030.002	tine (spring steel) with nut 1,100 mm long			5,8

red RAL 3002

Mechanical bale handler

With **Euro- and three-point bracket**, mechanically adjustable in 50 mm increments, the steel support tubes (1,200 mm long) close with a round cap, adjustable for road transportation, optional with heavy duty tines.

Art.-No.	min. width ext. dim (mm)	bale size in mm	ext. height in mm	load capacity in kg	weight approx. kg
125.027.000	1.100	900-1.500	600	1.000	90
125.027.300*	1.100	900-1.500	600	1.000	90

red RAL 3002 *with heavy duty forged spring steel tines

Buckets and grippers

Universal Buckets

With **Euro-bracket**, hardened 500 HB cutting edge, lateral wear plates and lower surfaces, bilateral optical position indicator.

Art.-No.	width (B) in mm	volume in ltr.	bucket depth in mm	weight approx. in kg
125.026.216	1.600	450	780	180
125.026.218	1.800	590	780	200
125.026.220	2.000	650	780	220
125.026.222	2.200	700	780	240

black RAL 9005

Volume Buckets

With **LP-bracket for front-, telescopic- or wheel loaders** (please order adapter plates separately), conical design for better sliding of the bulk material, hardened 500 HB cutting edge and protective runners at the bucket base.

Art.-No.	width (B) in mm	volume in ltr.	bucket depth in mm	weight approx. in kg
125.035.016	1.600	770	1.000	220
125.035.018	1.800	870	1.000	250
125.035.020	2.000	970	1.000	280
125.035.022	2.200	1.070	1.000	310
125.035.025	2.500	1.200	1.000	340

black RAL 9005

Manure Forks

With **Euro-bracket**, centre of gravity is located close to the tractor, screw on forged tines (length 800 mm), wear plates on the lower surface, thick walled sheets for tough use.

Art.-No.	width (B) in mm	number of tines	weight approx. in kg
125.032.112	1.200	7	180
125.032.114	1.400	8	200
125.032.116	1.600	9	220
125.032.118	1.800	10	240
125.032.120	2.000	11	260
125.032.122	2.200	12	280

anthracite-grey RAL 7016 – red RAL 3002

Buckets and grippers

Multipurpose Buckets, compact

For small tractors, wheel and compact loaders (645 mm high), **with Euro- or LP mini-bracket**, the bucket metal is 6 mm thick, two side panels, hydraulic cylinder and hydraulic hoses with quick connector BG3, cutting edge of hardened steel 500 HB, maximum opening width of 1,050 mm.

Art.-No.	width (B) in mm	volume in ltr.	number of tines	weight approx. in kg
125.061.014	1.400	460	6	240
125.061.016	1.600	480	6	260
125.061.018	1.800	500	7	280
125.061.020	2.000	530	8	300
125.062.014	1.400	460	6	240
125.062.016	1.600	480	6	260
125.062.018	1.800	500	7	280
125.062.020	2.000	530	8	300

anthracite-grey RAL 7016 – side panels red RAL 3002

Multipurpose Buckets

With **LP-bracket for front-, telescopic- or wheel loaders** (please order adapter plates separately), bucket metal 8 mm thick, incl. side plates, hydraulic cylinders and hydraulic hoses with quick connector BG3, double wear resistant 500 HB cutting edge, protective runners at the bucket base, 1,100 mm high.

Art.-No.	width (B) in mm	volume in ltr.	number of tines	weight approx. in kg
125.060.020	2.000	1.300	6	700
125.060.023	2.250	1.500	6	790
125.060.025	2.500	1.700	8	850

anthracite-grey RAL 7016 – side panels red RAL 3002

Buckets and grippers

Silage Grab Buckets

With LP-bracket for front-, telescopic- or wheel loaders (please order adapter plates separately), with hardened 500 HB cutting edge, protective runners at the bucket base, generously dimensioned hydraulic cylinders and hydraulic hoses with quick connector BG3.

Art.-No.	width (B) in mm	volume in ltr.	bucket depth in mm	weight approx. in kg
125.040.016	1.600	750	900	470
125.040.018	1.800	850	900	500
125.040.020	2.000	950	900	525
125.040.022	2.200	1.050	900	550
125.040.025	2.500	1.200	900	610

black RAL 9005 – red RAL 3002

Forks with grapple

With **LP-bracket for front-, telescopic- or wheel loaders** (please order adapter plates separately) wear plate at the bottom, 900 mm forged tines, thick-walled side plates, hydraulic cylinders, hydraulic hoses, quick connector BG3.

Art.-No.	width (B) in mm	number of tines down	weight approx. in kg
125.033.014	1.400	8	310
125.033.016	1.600	9	330
125.033.018	1.800	10	360
125.033.020	2.000	11	380
125.033.022	2.200	12	410

black RAL 9005 – red RAL 3002

Devices for compact loader

Forks with grapple, mini

With **LP-bracket for compact loaders** (please order adapter plates separately), wear plate at the bottom, 800 mm long forged tines, thick-walled side plates, hydraulic cylinders, hydraulic hoses with quick connector BG3.

Art.-No.	width (B) in mm	volume in ltr.	number of tines	weight approx. in kg
125.120.009	900	260	5	140
125.120.010	1.000	305	5	160
125.120.012	1.200*	350	6	180

anthracite-grey RAL 7016 – red RAL 3002

*From a width of 1,200 mm, the devices can be equipped with a Euro-bracket (LP bracket).

Multipurpose Buckets, mini

With **LP-bracket for compact loaders** (please order adapter plates separately), bucket metal 6 mm thick, incl. side plates, hydraulic cylinders, -hoses, quick connector BG3, cutting edge (500 HB), protective runners at the bucket base.

Art.-No.	width (B) in mm	volume in ltr.	number of tines	weight approx. in kg
125.122.009	900	260	5	160
125.122.010	1.000	305	6	175
125.122.012	1.200*	350	7	190

*anthracite-grey RAL 7016 – side panels red RAL 3002**

*From a width of 1,200 mm, the devices can be equipped with a Euro-bracket (LP bracket).

Loader Buckets, mini

With **LP-bracket for compact loaders** (please order adapter plates separately), wear plate under the shovel bottom, incl. side plates, quick connector BG3, hardened 500 HB cutting edge.

Art.-No.	width (B) in mm	volume in ltr.	bucket depth in mm	weight approx. in kg
125.123.009	900	230	770	95
125.123.010	1.000	270	770	105
125.123.012	1.200*	310	770	115

anthracite-grey RAL 7016

*From a width of 1,200 mm, the devices can be equipped with a Euro-bracket (LP bracket).

Sieve buckets, mini

With **LP-bracket for compact loaders** (please order adapter plates separately), hardened steel cutting edge 500 HB, additional protective runners at the bucket base. 20 mm round rods with a distance of 40 mm, thick-walled support tube and stable side plates.

Art.-No.	width (B) in mm	bucket depth in mm	weight approx. in kg
125.141.012	1.240	655	170

anthracite-grey RAL 7016

Adapter frames

Three point- & euro-frames

Three point adapter frame for using devices with **Euro-bracket**. Euro adapter for using devices with three-point linkage on the front end loader.

Art.-No.	description	position of bracket**	max. width ext. in mm	load capacity in kg	weight approx. in kg
125.017.320	three-point adapter frame cat. II with all bolts (1)	110	1.130	1.000	70
125.017.350	three-point adapter frame cat. II for small tractors, with all bolts	210	1.130	1.000	70
25.031.000	euro adapter for cat. II three point attachment device (EN 23205) (2)		1.100	1.000	50
125.031.300	euro adapter basis* for cat. II three point attachment device (3)		1.200	1.000	50

red RAL 3002 – anthracite-grey RAL 7016

** without Euro bracket, prepared for welding on wheel loader consoles*

*** distance of the euro bracket from the lower link bolt*

Tractor and Implement Triangles

For easy connecting and disconnecting of front and rear units, according to ISO 11001-2, Tractor triangle Cat. I and Cat. II with double guide roller.

Art.-No.	description	total load approx. kg*	weight approx. in kg
125.018.100	tractor linkage triangle cat. IIS	1.200	40

Quality made by Schneider

For three decades, Schneider has been supplying innovative components for vehicle construction and agricultural engineering. Our production is consistent according to ISO 9001: certified in 2008. Well-known agricultural engineering companies appreciate the reliable product quality as well as the delivery just in time from the central warehouse in Bielefeld.

Our engineers develop practice-oriented, robust quality solutions for your success. In addition to springs, axle units,

supports and support wheels, we offer this product overview with attachments for front loaders and the front or rear hydraulics of tractors as well as for compact loaders and telescopic handlers.

In addition to the standardized components that can be supplied at short notice to trading companies, our creative and committed development department supports the product development of trade and industry with the parts that meet your requirements.

*Customer satisfaction is at the heart of our quality policy in accordance with international quality standard **EN ISO 9001:2008** of the Schneider-AluTeam group of companies.*
